

TROUT IN THE CLASSROOM

Summit Supply provides annual grants to fund equipment purchases and to cover ongoing expense for this innovative, environmental education program. Students in grades k-12 will take an active role with the following:

- Raise trout from eggs to fry
- Monitor tank water quality
- In-stream habitat study
- Appreciate water resources
- Begin to foster a conservation ethic
- Understanding ecosystems
- Release trout in a nearby stream

KID'S RIVER DAYS

Summit Supply provides annual funding for youth fly fishing and river stewardship instruction, as well as fly fishing equipment purchases. Classroom and riverside sessions include:

- Fly casting instruction
- River stewardship
- Stream entomology
- Fish biology & behavior
- Learn proper catch and release technique

RIVER CONSERVATION PROJECTS

Summit Supply provides annual funding for local river restoration projects. In particular, a five year action plan has been created for the Cocheco River. Efforts will include:

- Riparian habitat restoration
- Bank stabilization
- Culvert improvements
- Public access improvements
- Youth stewardship education
